En memòria de M^a Eugenia Castellanos

Aquesta setmana volem dedicar unes línies a recordar amb afecte i tristesa la **M^a Eugenia Castellanos**, una companya i investigadora que ens va deixar fa poc més d'un mes.

Destacada bioestadística, la seva feina en metodologies bayesianes i la seva inestimable contribució a la **Societat Espanyola de Biometria (SEB)**, on va defensar amb passió la bioestadística i va exemplificar el compromís i el treball en equip, són un llegat per a tots nosaltres.

Més enllà del seu brillant perfil acadèmic i la seva vasta producció científica, la recordarem per la persona que era: humil, assertiva i sempre disposada a ajudar.

Als qui vau tenir l'oportunitat de conèixer-la o de treballar amb ella, us convidem a guardar-ne un bon record.

GRBIO Abroad: Daniel Fernández!

On June 3–5, the [Regional Statistics Conference 2026](#) took place in Valletta (Malta), where our colleague **Daniel Fernández** had the opportunity to attend and participate.

GRBIO Abroad: Marta Bofill!

Last week, many of our members presented their work across different locations around the world, and **Marta Bofill** was also among them.

She took part in the [Adaptive Designs and Multiple Testing Procedures Workshop](#), held in Newcastle upon Tyne from 2–3 June 2026.
